How to understand this list of courses:

E1, E2 and E3 refer respectively to 1st, 2nd, 3rd year (bachelor) and E4 is the 4th year / 1st year of master degree. E1 to E4 refers to courses taught at our school **ESTICE**. The same goes for TEC1 up to TEC4 for courses taught at our school **ESPAS**. You can choose courses either taught to ESTICE or ESPAS students, or to both. You may also select courses taught above or below your year in your home university, but make sure you have some prior knowledge of the subject when before taking a 3rd year or 4th year class.

NB: Courses at ESPAS **ESTICE** are taught in the same building (Building E, Saint Raphaël Campus, 83 boulevard Vauban, LILLE).

Courses at ESPAS **ESTICE** are taught in **English or French**. Please note that courses in **German, Spanish, Chinese, Japanese, Russian and Portuguese** are language acquisition courses (in blue), and **can't be chosen by native speakers** of that language.

FLE (French as a Foreign Language) and **CFBS** (Contemporary French Business and Society) are courses specially designed for international students and they are highly recommended for international students.

Courses described as **"Elective"** in the "Type of course" column (in orange) are usually happening at the same time for a dedicated year (3rd or 4th year). Please note that you shouldn't select several electives with the same number in the same year (i.e: selecting 2 courses tagged as "Elective 1 – 3rd year").

Courses in **bold** are taught in **English**

In the **"Evaluation"** column, you can know how a course will be evaluated:

100% EXAM: You will have 1 final exam at the end of the semester, which will count as your grade for this course

50% CC – 50% EXAM: You will have 1 or more tests during the semester (continuous assessment, "CC") and 1 final exam. Your final grade will be calculated with your final exam grade counting as 50% and the average of all your CC tests counting as 50% of the final grade.

100% CC: You will have 1 or more tests during the semester and during class time. The average of all the tests will be your final grade for this course.

No Evaluation: There is no test/exam, the course is completed if you have attended all the sessions.
